PORTFOLIO

[GitHub link ↗](#)

PROJECTS

[Book Haven – Bookstore Website ↗](#)

Jul 2025 - Present

- Built a fully responsive online bookstore website using HTML, CSS, and JavaScript.
- Designed a modern and user-friendly interface optimized for desktop and mobile devices.
- Implemented live book search, wishlist management, and WhatsApp customer support integration.
- Improved user experience through responsive layouts, interactive UI components, and clean navigation.

AI Voice Assistant with Face Recognition

Feb 2026 - Present

- Developed an AI-powered voice assistant using Python to understand and execute natural language commands.
- Integrated Speech Recognition, Text-to-Speech (pyttsx3), and OpenCV for voice interaction and face recognition authentication.
- Automated tasks such as opening applications, performing web searches, and executing system commands.
- Utilized AI APIs and Python libraries to process user commands and improve interaction accuracy.

[TusharVerse – Personal Portfolio Website ↗](#)

Jun 2026 - Present

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, education, and achievements.
- Built an interactive user interface with smooth navigation and project showcase sections.
- Integrated resume download, contact information, GitHub, and LinkedIn links for professional networking.
- Deployed the website using GitHub Pages for public accessibility.
